Re: *State of Oklahoma v. Tyson et al.*  
No. 05-CV-0329-GKF-SAJ

Dear Michael:

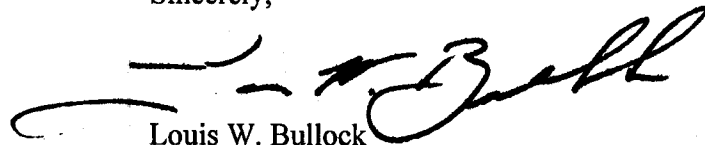

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD70 and STOK-CD71, along with an inventory of documents being produced.

The production of this data is being expedited pursuant to the Defendants' request and the Court's Order (Dkt. 1710). It is important to understand that in order to expedite the production of this data, we have not been able to complete our internal QA/QC process on this data. As that process is completed, we will further supplement the production.

I have also included the analysis of samples collected by the Oklahoma Scenic Rivers Commission. This is not data covered by the Court's Order of January 5, 2007 (Dkt. 1016), but as that data is received, we will continue to forward it to you. This production also contains Bates numbered copies of data from Northwind Laboratories. This data was originally produced on May 15, 2008 as part of the information considered by Dr. Harwood. I have included it in this production so that it can be uniformly numbered with the other data. Finally, the most recent USGS data I have received is also included in this production.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock
